| Water rating       | IPX5 motor and display |

## Range figures

Range is measured in eco mode with a 70 kg rider on flat ground at 25 C.  
Real range varies with load, terrain, temperature, tyre pressure and assistance level, and will usually be ten to twenty per cent lower.

## Warranty

|                            |         |
|----------------------------|---------|
| Frame, fork, rear triangle | 3 years |
| Battery pack               | 2 years |
| Motor, controller, display | 2 years |
